SAIF FAISAL

Design Engineer I UI/UX I Full-Stack & AI Products

saif.shouvik@gmail.com | linkedin.com/in/saif-faisal820 | behance.net/saifshovisky | uixard.vercel.app

Rajshahi, Bangladesh — Global Remote

Summary

Design Engineer with 6+ years across product design and full-stack development. I take products from research and Figma to production React / Next.js — modernizing enterprise field-service software at Xceleran, building multi-vendor commerce with AI assistants, and shipping real-time 3D on the web. Top-rated on Upwork with 20+ projects delivered.

Experience

Full-Stack Developer

iGarage – Hybrid

Oct 2025 – Present

- Build the storefront in Next.js 15 + TypeScript on MedusaJS 2 — search, car compare, test drives, checkout, and My Garage.
- Integrate Algolia search, Stripe and Stripe Connect payouts, Strapi CMS content, and buyer–vendor messaging.
- Ship AI features: an n8n-powered chat assistant and AI vehicle-diagnosis requests with per-user quotas.
- Develop the React + Vite vendor panel (TanStack Query / Table) for products, inventory, orders, and promotions.
- Write design specs and HTML prototypes; maintain brand guidelines, design tokens, and Storybook.

Full-Stack Developer

Hootum – Hybrid

Oct 2025 – Present

- Build the marketplace in Next.js 14 with Tailwind CSS, Radix UI, and React Hook Form + Zod.
- Implement trust flows: OTP sign-in, step-based identity verification, PIN setup, and notarization with fees shown up front.
- Develop the React wallet app (Redux Toolkit, MUI, Chart.js): vault, passport, membership, transfers, and reward points.
- Wire domain service modules over a shared API client; Docker and GitLab CI delivery with Sentry monitoring.

Skills

Product & UX Design

Figma | Adobe XD | Framer | Zeplin | Sketch | Illustrator | Photoshop | UX Research | Personas | Journey Mapping | User Flows | Wireframing | Prototyping | Usability Testing | Heuristic Evaluation | Accessibility (WCAG) | Design Systems & Tokens | Design Specs | Microinteractions

Frontend

React | Next.js | TypeScript | JavaScript | Angular | Vue.js | Vite | HTML5 | CSS3 | Sass | Tailwind CSS | Bootstrap | MUI | Radix UI | Redux Toolkit | TanStack Query / Router / Table | React Hook Form + Zod | Framer Motion | GSAP | Storybook | i18n (next-intl, i18next) | Google Maps API | Leaflet | FullCalendar

Full-Stack & Data

Node.js | Express | .NET Core | ASP.NET Web Forms | C# | PHP | REST & GraphQL APIs | Microservices | Auth & Authorization | PostgreSQL | Supabase (RLS, migrations) | MongoDB | MySQL | SQL Server | TimescaleDB | MedusaJS | Strapi | Stripe / Stripe Connect | Algolia | FlutterFlow

AI Products

AI chat & assistant UX | LLM API integration | n8n AI workflows | AI diagnosis flows | Prompt design | AI-assisted development (Claude Code, Cursor)

3D & Creative Web

Three.js | React Three Fiber | Drei | WebGL | GLSL shaders | Blender | glTF optimization (Draco, Meshopt)

Tools & Workflow

Git | GitHub | GitLab CI | Playwright | Vitest | pgTAP | Bitbucket | Docker | CI/CD | Webpack | Babel | npm | Sentry | Agile / Scrum | Jira | Trello | Notion | Slack

Strength

Design-to-development synergy

High-fidelity designs translated into responsive, scalable frontend code with React, Angular, and Tailwind CSS.

User-centered product thinking

User research, journey mapping, and usability testing — every design decision tied to user needs and business goals.

UI/UX Software Engineer

Xceleran – Remote (USA)

Jun 2024 – Present

- Design and build web applications with Angular, React, .NET Core, and Tailwind CSS across the Xinator / CEC Pro / FSM product family.
- Modernizing CEC Pro — a ~117-page ASP.NET Web Forms field-service platform with 7 integrations — to React 19 + TypeScript, documenting workflows and business rules first.
- Own scheduling, dispatch, and map-based surfaces (FullCalendar, Google Maps, Leaflet) for Xinator Central, FSM, and MSPro.
- Produce wireframes, high-fidelity mockups, and interactive prototypes in Figma and Adobe XD.
- Partner with backend engineers to integrate APIs and optimize performance.
- Improved user engagement by 25% through design refinement and accessibility enhancements.

Freelance Product Designer & Developer

Upwork – Remote

Jun 2023 – Present

- Top-rated freelancer with 5-star client satisfaction and 20+ completed projects.
- Deliver full-cycle UI/UX projects, from research through design to frontend delivery.
- Built a modular design system — reusable Figma components implemented in code — that cut development time by 30% across projects.

Senior UI/UX Designer

Mukta Homes Ltd. – Onsite (Bangladesh)

Mar 2021 – Dec 2023

- Designed interfaces for mobile and web apps using Figma, Sketch, and Adobe XD.
- Delivered responsive UI for multiple SaaS applications in finance, HR, and logistics.
- Collaborated with developers, product managers, and stakeholders on user-centered design.
- Created wireframes, prototypes, and visual systems that raised user satisfaction by 20%.

Web Designer

SaasPot – Remote (USA)

Feb 2020 – Dec 2021

- Developed responsive websites using HTML, CSS, JavaScript, and PHP.
- Focused on user-centric workflows and clean layouts to improve usability.

Education

B.Sc. in Computer Science & Engineering

Varendra University, Rajshahi
Graduated – 2019

Cross-functional collaboration

Agile teams with developers, product managers, and stakeholders — polished, functional products delivered on time.

Key Achievements

+25% User engagement

Redesigned core web app flows at Xceleran — accessibility, visual clarity, mobile responsiveness.

20+ Freelance projects

Top-rated on Upwork with 5-star client satisfaction and long-term collaborations.

–30% Development time

Modular design system: reusable Figma components implemented in code across projects.

+20% User satisfaction

Wireframes, prototypes, and visual systems for SaaS products at Mukta Homes.

Selected Projects

iGarage — Multi-vendor automotive marketplace with AI assistance
Next.js 15 · TypeScript · MedusaJS 2 · Algolia · Stripe Connect · Strapi · n8n · React + Vite

Hootum — Collectibles marketplace + digital wallet
Next.js 14 · Tailwind CSS · Radix UI · React Hook Form + Zod · React · Redux Toolkit · MUI · Chart.js

Bhabishyat — BCS exam-prep platform — personal product, in development
React · Vite · Express · Zod · Supabase Postgres + Auth · Groq · pgTAP · Playwright

CEC Pro — Legacy Web Forms → React modernization (Xceleran)
React 19 · TypeScript · Vite · TanStack Router & Table · ASP.NET Web Forms · C# · SQL Server

Xinator Central — Enterprise scheduling and operations (Xceleran)
Angular · React · TypeScript · .NET Core · Tailwind CSS

FSM / MSPro — Map-based field-service scheduling (Xceleran)
ASP.NET Web Forms · JavaScript · Google Maps API · Leaflet · SQL Server

3D Portfolio World — Real-time 3D web experience
Three.js · React Three Fiber · GLSL · glTF / Meshopt · Blender
